Total Project Cost: \$10,840,000

Description

The project will reconstruct Galpin Blvd from 78th Street north to the City limits. The street is proposed to have geometric improvements made to conform to current design standards and urbanized to have concrete curb and gutter. Turn lanes will be constructed and trail improvements made. This section of Galpin Blvd is on Carver County's turnback list for roadways to be jurisdictionally transferred to the local agency. Once Galpin Blvd is reconstructed the City would be responsible for operations and future maintenance.

Justification

The pavement of Galpin Blvd has reached its life expectancy. The roadway at this time should be reconstructed and designed to current standards. The project is also planned for growth in the area.
